WANTS TO CHANGE NAME.

Bill Affecting Maryland Agricultu-

ral College Is Introduced. ANNAOLIS, Md., February 16 .- A bill Changing the name of the Maryland Agricultural College to the Maryland State College of Agriculture and Engineering was introduced in the house of delegates yesterday by Delegate Whiteley of Prince Georges county.

Mr. Whiteley said that he did this at the request of the trustees for the reason that, while the college had departments of engineering which were up to a high standard of efficiency and were educating a number of young men for engineering professions, the public, because of the name, thought that the college was only an agricultural institution. The bill was referred to the judiciary committee.

A "Low-Step" Suggestion.

To the Editor of The Star:

Noticing your editorial in The Star of Tuesday commending the adoption of high steps to streets cars, the following solution is suggested to me:

Increasing the width of the platform by two additional steps laterally would be inconvenient when two cars meet at a curve and would also subject it to greater danger of collision from shortturning vehicles about the front or rear of the car. Might it not be more practical to divide the one step into two longitudinally, placing the lower half next to the body of the car in such manner leaving the car, as the natural course the body of the car in such manner that the graded step would look like would be to place the right foot to place the right foot would take the same time classing the right hand, the right foot then to the purpose of devising means for placing the right foot then to the past for the lower, as the natural course generally grasp the rail of the car with the left in the purpose of devising means for placing the right foot then to the purpose of devising means for placing the right foot then to the past form the lower, as the same time classing the right hand, the right foot then to the past form the lower grade, the left the upper and the same time classing the right hand as the rectory of Emmanuel Episcopal Church in Mapte View place.
